

Base Lite

Fully cassetted folding arm awning

BASE

BASE LITE as the name suggests is a core part of the Base Family, built to replicate the base plus but in smaller proportions.

This Fully cassetted system is a fantastic addition to any property, whether extending the home with a welcome shaded area to your garden patio or protecting your shop window from light showers or a dazzling sunshine glare.

Due to its tight and compact finish the base plus accommodates a width up to 4m with three different projections in arm length.

Available top or face fixed with a bracket at either end a quick and easy install is easy to achieve with a simple adjustment to the pitch with a screw in system.
