

AWNINGS

EPICA

Fully cassetted folding arm
awning on two side brackets

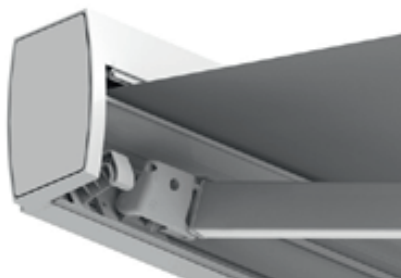

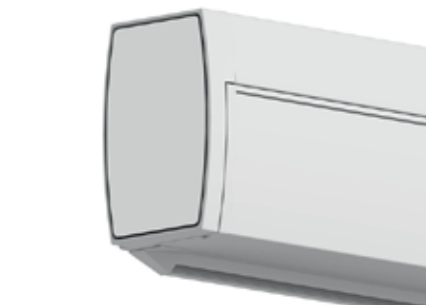

Optional LED Arms

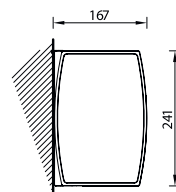

EPICA is one of our top models: a full cassette awning, particularly eye-catching thanks to its harmonious shape and integrated LED lighting across the cassette box, creating a spectacular effect across the outer silhouette.

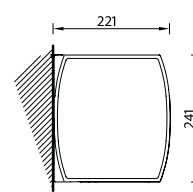

It features hidden fixings, adjustable brackets, and a patented tipping system for perfect front bar closure. A drop valance can be added for further shading control. The Epica when joined can span a width of 12 metres. Optional extras include integrated lighting and a box front bar for added style and function plate either a wall or a ceiling installation.
